- National board of directors meeting recap: Financially PCA is very strong, rebate to this Region is \$6/member. Digital media use has been very profitable. Many viewers on YouTube channel. Porsche Cup series broadcast very successful. Rose Cup running again this July in Portland, OR. PCA budget approved.

Anthony is asking any member with a suggestion for Parade, to complete the form on the website. These are only suggestions. No SSPCA member is to contact any member of the National organizing committee or speak to any restaurant, hotel or venue. Local volunteers will be contacted by the National organizing committee when the time comes.
- Nominating Committee and Officers Nominations: John Sommerwerck, Anthony Vierra and Randy Bloom volunteered for the Nominating Committee for 2026. Vicki Pentecost moved to approve John, Randy and Anthony for the Nominating Committee. Jackie Roeder seconded. Motion approved.
- Membership survey: Using the club's Google drive, easy to use survey template using Google Forms with options for types of answers. Since this is our 60th Anniversary year as well as our growing membership, thought it would be an opportune time to survey the membership for activities and goals for the club starting in 2027. Must have volunteers step up to organize activities, especially any new ideas. Bob Pentecost will send questions used in previous surveys. Anyone who would like to help with the survey, please contact Jackie.

- February 21, 2026 Tech Talk, very successful, over 50 participants. A big thank you to the Rag Company and MVP Detail for supporting us this year.

Tours- Diana Molenaar -

- June 26-29, 2026 Driving tour to Bend, OR. Diana is working on hotels.

DE/AX - Gary Roeder/Keith Hahn

- Spring BrezelCross registration open as well. New this year -- a Novice group for those who have five or less autocross days, along with a daily prize for the low time Novice. Bardenay gift cards are also now part of the daily prizes. We expect this event to fully fill up with a max of 60 drivers each day. Gary and Mark Peterson met with the Motorplex owner John Wood yesterday. He will be getting together with his pavement

guy next week and we all hope we will get a small asphalt area added to the track area allowing several other course options. The staging area pavement is also going to be repaired.

- Simulator update: We have two potential simulator events for the future. One would be a tech talk type of event with our new member and simulator software business owner Mike Harley, demonstrating his XP1 drivers skills training software. This could be potentially open to younger juniors, as long as they fit in the seat. The other is a potential event for up to 24 drivers at the RaceSimClub. This has a higher age and size limit due to the setup of the sim rigs. This would be an introductory event to this type of fun. Note that this would not be using the iRacing PCA sim racing format, as they do not run this on their rigs. For this event, Gary would like to survey the membership if they would support such an event. Julie could add this as a poll question through the Happenings.
- March 14 Spuds: Spuds registration open. Spud Daddy, will prepare and donate the spuds for this event. Please stop by Spud Daddy at 8th and Broad and show our support for this business. Some very nice things have been donated and I will use these to spur attendance using our FB page. We hope all Club members who are ready to get their Porsche Spring started early will come out to the dinner and auction for some great fun! Thanks to Bob Denton once again for the use of his hangar!
